Nadin Agour

Ann Arbor, MI | +1 (734)-291-2424 | nagourrr@gmail.com | [Linkedin] | [Portfolio]

EDUCATION

University of Michigan - *Bachelor of Engineering*   **Ann Arbor, MI**
Major: Computer Science Engineering   **Minor**: User Experience Design   December 2025
Relevant coursework: Data Structures/Algorithm, Human-Centered Software, Discrete Math I & II, Bldg Data, Driven Application, Database Management System, Computer Organization, Linear Algebra.
Washtenaw Community College, *Associate in Science*   July 2022 - August 2023

SKILLS

Languages: English, Arabic, Turkish   **Programming:** C++, C, Python, SQL
Software: Microsoft365, Google Workspace, Adobe   **Frameworks:** VS Code, X Code, GitHub
Soft Skills: Communication, Time Management, Muli-tasking, Leadership   **Web Development:** CSS, HTML

SOFTWARE DEVELOPMENT PROJECT EXPERIENCE

Resize Image:
● Optimized memory efficiency through strategic pointer usage by developing a smart seam-carving program that dynamically resizes images using mathematical algorithms.

Euchre Game:
● Designed a C++ interface enabling users to play Euchre with simulated players, implementing game strategies through object-oriented programming for realistic, automated gameplay.

Piazza Classiefer:
● Implemented a binary search tree and used the map abstract data type to build a data container that identifies new posts and displays relevant associated content.

Mine Escape:
● Developed efficient data structures and algorithms with priority queues, and implemented an interface utilizing inheritance and dynamic polymorphism for flexible functionality.

SillyQL:
● Created a program to emulate a basic relational database, featuring an interface that supports a subset of SQL commands.

PROFESSIONAL EXPERIENCE

Central Academy   **Ann Arbor, MI**
Substitute Teacher/Paraprofessional   July 2023 - Current
● Empowered children to develop problem-solving skills and bring their ideas to life by designing and teaching engaging coding lessons with hands-on projects.
● Fostered an inclusive, positive learning environment by tailoring lesson plans to diverse student needs and collaborating with staff.

College of Engineering, University of Michigan   **Ann Arbor, MI**
Project Coordinator Intern   May 2024 – August 2024
● Coordinated logistical components of Engineering OnRamp, supporting high school students' engagement in college life through 10 STEM programs.
● Utilized Google Workspace to organize documents and schedules, enhancing digital organization and streamlining collaboration across cross-functional teams during key program transitions.
● Guided Program, Student Life and Residential Advisors on strategies to enhance student engagement and support.
Program Advisor Intern   June 2023 – May 2024
● Supported 10 instructors in developing lesson plans and delivering in-class activities on data development and coding, enhancing students' technical skills.
● Guided 80+ students in applying acquired knowledge to urban farming and food/environmental justice projects, using an equity-centered engineering approach to foster community impact.
● Collaborated with faculty, staff, and administrators to ensure alignment with institutional goals and improve program delivery.

Inter-university Consortium for Political and Social Research, University of Michigan   **Ann Arbor, MI**
Program Specialist Intern   June 2023 – August 2024
● Assisted instructors with 50+ technical issues related to university systems and classroom technology controllers, resolving tickets submitted via the Jira Service Management platform.
● Delivered search engine optimization recommendations to 50+ ICPSR staff members, enhancing website visibility and user experience.
● Conducted usability testing on AI platforms, including ChatGPT and Google AI, collecting statistical data from students to evaluate their effectiveness in data analysis and educational support.
